HKBN Achieves AWS Partner Network (APN) Certification Distinction with Milestone of over 140 AWS Certifications

(Hong Kong - 31 March 2020) HKBN Group ("HKBN" or the "Group"), a leading integrated telecom and technology solutions provider headquartered in Hong Kong with operations spanning Asia, is proud to announce that it has achieved the APN Certification Distinction by amassing **over 140 Amazon Web Services (AWS) certifications** in Hong Kong. This milestone recognises HKBN's commitment in its own cloud transformation journey, and its ability to offer next-generation AWS Managed Services to customers, enabling them to drive digital transformation through cloud computing.

With well over 140 AWS certifications, HKBN is set to help enterprises turbocharge their cloud journeys by serving as their advisor, architect and specialist to drive innovation with the best-fit cloud solutions. By leveraging AWS best practices from AWS Solution Provider Program, Well Architected Program and more, HKBN enables its customers a seamless, fast and successful cloud migration experience.

Committed to being one of the most cloud-proficient telecom and technology solution providers in Hong Kong, HKBN encourages all HKBN Enterprise Solutions ("HKBNES") Talents to continuously invest in themselves and enhance their skills in cloud. Since 2018, around 1,300 HKBN professionals from the Technical, IT, Digital, Sales and various supporting teams have obtained certifications from different global cloud technology companies or cloud learning platforms.

"HKBN has been working relentlessly to become a trusted partner of our customers through leveraging the innovation and cost effectiveness of AWS solutions," said Andy Lau, Co-Owner & Chief Commercial Officer – Cloud Services, Enterprise Solutions.

"Achieving the APN Certification Distinction with more than 140 AWS certificates has demonstrated the dedication of our team in delivering the best-in-class services to customers. With these accreditations, we are in a far better position to help our customers to transform their businesses and navigate challenges. We believe our collaboration and offerings with AWS will benefit our Hong Kong customers and the local business communities." Lau added.
