

NEWS BRIEF**JOS Hong Kong celebrates refreshed brand identity with state-of-the-art Solution Centre**

Hong Kong – 18 March, 2016 – On two consecutive days from 17 to 18 March, 2016, JOS Hong Kong invited customers, partners and member company executives from the Jardine Matheson Group to experience the new JOS at a cocktail reception held at our newly refurbished office.

At the event, JOS highlighted how we have repositioned the company at the forefront of Asia's business technology sector through the development of new solutions, new partnerships and the recruitment of industry renowned experts. The two-day event kicked off with welcome addresses from Eric van der Hoeven, Chief Executive of JTH Group, Mark Lunt, Group Managing Director of JOS, and Eric Or, Managing Director, Hong Kong & Macau at JOS who shared our goal of becoming a trusted technology partner for emerging and established technologies. This was followed by a tour of our office.

The event also provided the perfect opportunity for JOS Hong Kong to unveil our new Solution Centre, which will help customers and partners appreciate the power of JOS's solutions. The Solution Centre debuted with three pioneering technology showcases which demonstrated: how technology enables the early detection of forest fires; CityTree, which brings together plants and the internet of things to reduce pollution; and the powerful data visualisations of Tableau.

Following the successful launch of this new facility, attendees relaxed over cocktails, an end to the day which provided the perfect opportunity to network. Over 130 customers, partners as well as Jardines member company executives attended in what was a hugely successful event.
