#ToughTimesTogether Wave 3

HKBN Offers Career Kickstarter to 100 University Graduates

(Hong Kong - 2 April 2020) In line with its core purpose to “Make Our Home a Better Place to Live”, HKBN Group (“HKBN” or the “Group”) today announced the launch of “**#ToughTimesTogether - Career Kickstarter for Graduates**”. This programme offers 100 university graduates a three-month learning and career opportunity, aiming to give them inspiring work experience and prepare them for their future career aspirations.

In view of the economic challenges from COVID-19, HKBN previously rolled out two waves of **#ToughTimesTogether** campaign, giving 1-month service fee waiver to customers and 2-year free broadband service to 10,000 disadvantaged families respectively. As economy continues to suffer and the academic year is drawing to a close soon, HKBN understands university graduates are facing unprecedented challenges in job search, and therefore it will extend **#ToughTimesTogether** to university graduates. To help them kickstart their career, HKBN will offer 3-month on-the-job training and mentorship from its top 1% executives, as a springboard for the graduates’ future career aspirations. Some of the key features of the programme are:

- **Invaluable practical work experience**
Through wide-ranging on-the-job experiences at HKBN, graduates will gain useful skills and know-how to support their transition from university life to full-time employment
- **Inspiring mentorship**
Receive one-on-one guidance from the top 1% (about 70) HKBN executives, helping graduates broaden their horizons and fast-track their career development with vital business and leadership insights
- **Experience HKBN’s unique culture**
Experience HKBN’s unique culture and see how it puts values — such as entrepreneurship, disruptive innovation, continuous learning, and LIFE-work priority — into practice for success

From now till 30 April 2020, local or overseas university graduates of 2019 or 2020 are welcome to apply for this programme. Opportunities are available in Business Analysis, Cloud Services, Corporate and Marketing Communications, Corporate Sales, Digital Transformation, Finance, Information Technology, Legal & Regulatory, Marketing, Network Technology, Operations Management, Talent Engagement, JOS Beyond-Hong Kong offices and more. For details of the programme, please visit www.hkbn.net/ToughTimesTogether3/en.

2 April 2020

Dear 2019 or 2020 University Graduates,

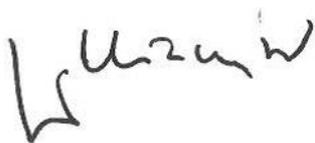

**#ToughTimesTogether Wave 3 – HKBN Offers Career Kickstarter to
100 University Graduates**

You are graduating in an unprecedented time, with your final year of university being heavily interrupted by the global pandemic. At HKBN, we fully appreciate the challenges that we all face, especially our young people. However, we believe that by facing these challenges together as a community, we will overcome them better and come through stronger.

Even in normal circumstances, the gap between university and the practical working world is huge, and the current crisis has only widened the gap even further. At HKBN, we would like to offer 100 new university graduates with 3 months of learning and job opportunities whereby we hope to prepare you to transition from university to full time employment. In this 3-month period, we will provide you with a place to learn and fail, so as to build your confidence in seeking full time employment afterwards, be it in HKBN or elsewhere.

With a maximum 2-to-1 mentee-to-mentor ratio pairing, we will open up our top 69 Hong Kong based executives, in a 2-way mentoring relationship during this 3-month period. These executives, who represent the top 1% of leaders within our 6,000 Talents strong HKBN, will personally help guide you to make the leap from university to the working world.

#ToughTimesTogether,

William

NiQ
