

Smarter Offices Make Businesses More Successful

Creating a “modern office” is like trying to hit a moving target. That’s because new digital technologies are constantly turning last month’s “optional-extras” into today’s essential business tools.

That’s where HKBN JOS comes. We provide the expertise you need to make the most of physical and virtual spaces. Our comprehensive portfolio of cutting-edge, smart office solutions enables you to streamline workflows, increase comfort, ensure safety and security, and deliver the best R.O.I.

More Intelligent Meetings

Poor meeting management wastes a lot of time. For example, Gartner estimates the average employee spends 27 hours per year looking for available spaces to meet*.

HKBN JOS provides the expertise, smart technologies and solutions to help organisations make the most of valuable meeting time, increase collaboration and cut costs. That includes switching to smaller but fully-equipped conference rooms, creating flexible spaces for ad-hoc interactions, and using smart office tools to streamline room booking.

Managing Meeting Rooms

..... *Streamline the entire process through an app*

- Maximise utilisation with smarter room scheduling
- Set specific requirements (e.g. whiteboard, AV)
- Generate comprehensive utilisation reports

Virtual Meeting Rooms

..... *Save time and cut out travel costs by meeting online*

- Instantly join any conference at the touch of a button
- Use any digital device – smartphone, desktop computer or videoconferencing end-point
- Enjoy the same collaboration and document sharing capabilities of physical meeting rooms

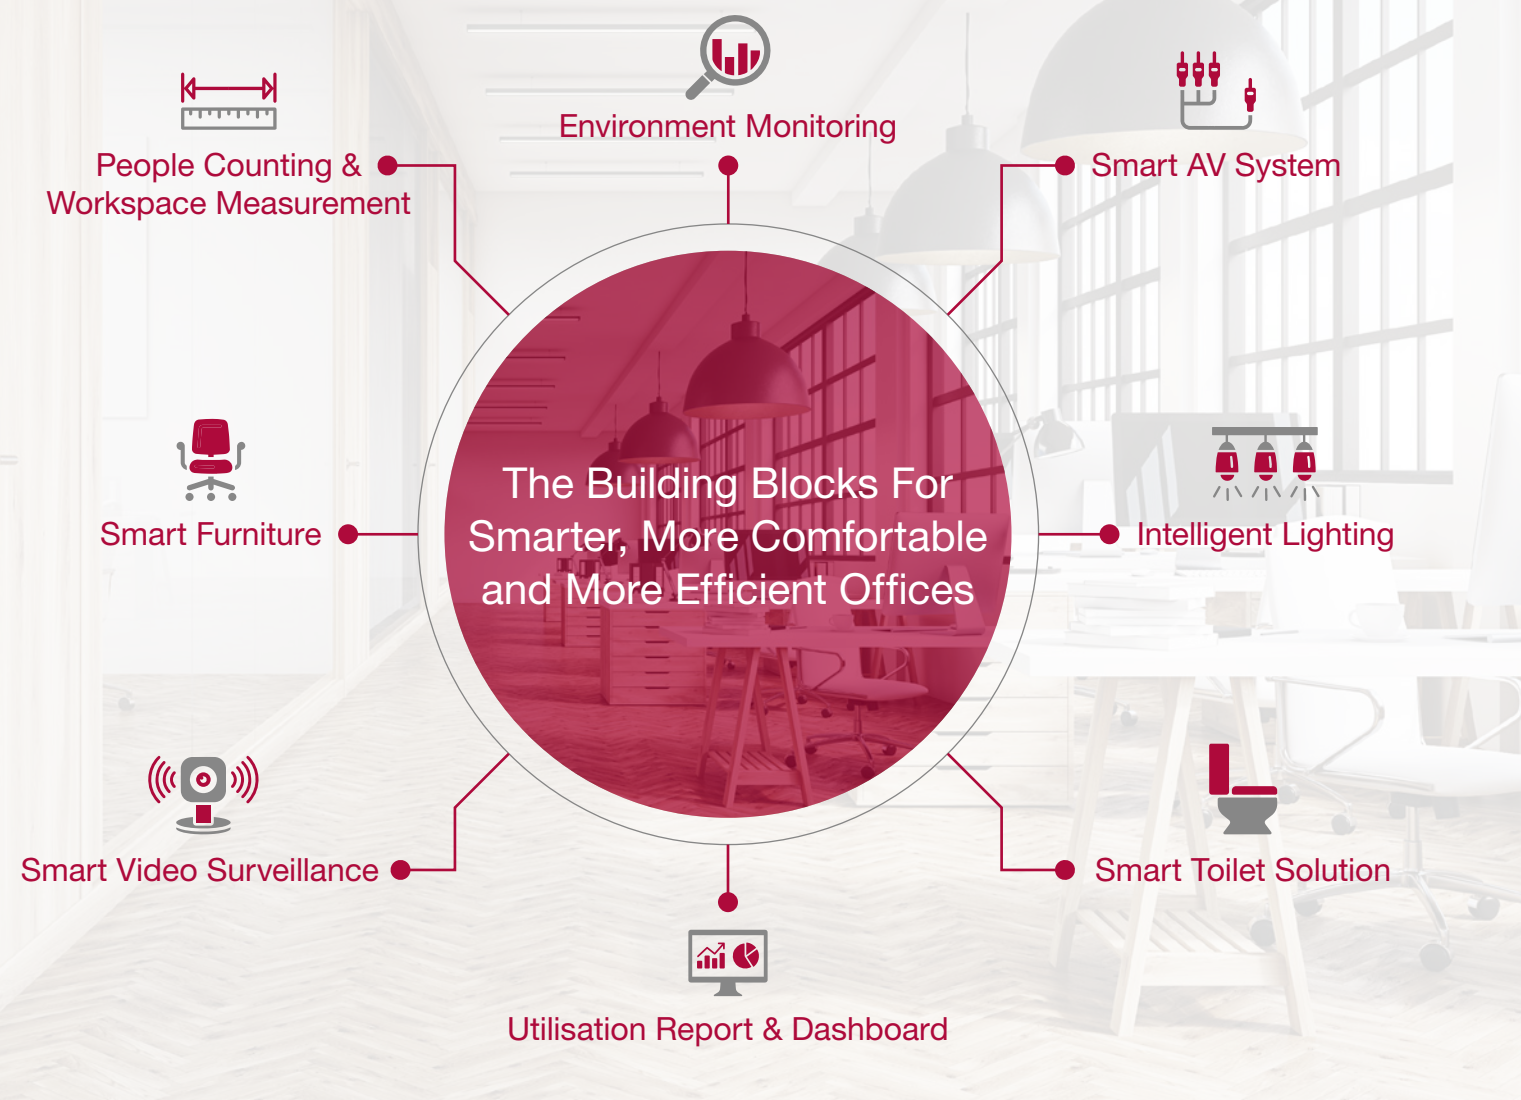

Smart Video Conference Solutions

..... *Fast, flexible and functional*

- Tailor the technology to suit your needs
- Take the whole team or meet 1-to-1
- Collaborate efficiently, communicate effectively
- Capture every eye-blink and syllable of body-language without leaving your office

Create a Smarter Environment

When it comes to maintaining staff morale and encouraging performance, a good working environment makes all the difference. HKBN JOS helps clients to create superior office infrastructures, carefully manage each aspect of the environment, and monitor key indicators for immediate action or long-term planning.

Why HKBN JOS?

With unparalleled subject matter expertise across multiple industries, HKBN JOS helps you identify and address your key priorities and meet current and future challenges. Our outstanding smart office capabilities include:

Leaders In Technology Innovation

Unlike many others, we deliver completed smart office solutions underpinned by the latest Wi-Fi 6, LTE and LoRaWAN connectivity. This can unlock incredible value for your business.

End-to-end Solutions

With a broad, smart office solution portfolio, including holistic design, planning, implementation, support and after sales service, HKBN JOS has you covered from start-to-finish, and anywhere in-between!

Unrivalled Knowledge And Support

Over 60 years of APAC experience, in-depth IT knowledge, and exceptional execution, enables HKBN JOS to provide whatever you want wherever you need it. Our vendor agnostic approach offers unmatched flexibility to deliver comprehensive solutions that match the needs of your business.

One-stop Maintenance Service

HKBN JOS Maintenance Service provides complete multi-vendor coverage. Our large, highly skilled team carries the most recognised, industry-standard credentials and certifications. So we can troubleshoot and fix systems from all the leading vendors.
